Revisions to Statement of Work to Task Order 16 under contract 200-2000-08018:

1. The following sites are removed from the Task Order 16 scope of work.
  - Nuclear Materials and Equipment Corp. (NUMEC) – Apollo
  - Nuclear Materials and Equipment Corp. (NUMEC) – Parks Township
  - Sacandaga Facility
  - Separations Process Research Unit (at Knolls Lab)
  - Harshaw Chemical Co.
  - Monsanto Chemical Co.
2. Battelle has categorized all sites into a 7 categories (including an “unassigned” category). Site Profiles for the uranium metal and uranium refinery categories have been drafted and delivered for review by the NIOSH-OCAS technical monitor.
  - Work on Site Profiles for the remaining categories should stop.
  - The categorization of sites that include categories outside the two listed above should be verified. The verification should center on whether or not dose reconstructions for the site can be performed using the two Site Profiles above. For example, some sites may be listed as Research and Development (R&D) and Uranium Refining but the R&D work may be associated with the uranium refining process and the refining Site Profile would cover the work. In that case, the R&D designation should be removed.
  - The verification/reclassification of sites must be completed and delivered to NIOSH-OCAS no later than 10/13/2006.
  - For sites that do not fall into one of the two Site Profile categories above, deliver to NIOSH-OCAS no later than 10/31/2006 any summaries or site research and partially developed documents for sites. No further work will be required for those sites.
3. Submit to NIOSH-OCAS the two existing Site Profiles incorporating comments by 10/24/2006.
4. Submit to NIOSH-OCAS an Appendix for each of the following sites by 11/24/2006. The Task Technical Monitor can approve acceptable alternatives to completing these appendices. Acceptable alternatives include:
  - a. No Appendix is necessary for sites that can not be completed using the two Site Profiles above unless approved by Technical Monitor.
  - b. If a Dose Reconstruction for all the claims on the provided list for a particular site can be completed without first completing an Appendix, the site can be removed from the priority list. That is provided the completed Dose Reconstructions are submitted to NIOSH-OCAS.
  - c. An Abbreviated Site Summary Form for each site.
